### Reasons for further change in use of proceeds

As disclosed in the interim report of the Company published on 2 September 2021, despite the global eyewear industry has shown a mild trend of recovery in 2021 from the impact of COVID-19, the global economy and the Group's business are fraught with uncertainties, including continuing COVID-19 challenges. A resurgence of infectious cases in many countries has re-introduced calls for lockdowns and tightened epidemic control measures, and threatens to weaken or delay a potential economic recovery.

Against such backdrop, the Group is of the view that it would be appropriate to maintain the Group's strategy of prudently prolonging the timeline for the Group's business plans (including the expansion of the Group's production capacity), which would enhance the cash position and liquidity of the Group to respond to the challenging economic environment ahead.

As the development of COVID-19 situation worldwide fluctuates, there remains a high degree of uncertainty over the stability and future trend of the macro-economy, including Europe. Therefore, the Board is of the view that in order to mitigate the continuing uncertainty casted by COVID-19, the priority of the Group remains to be the maintenance of a healthy financial position by, among others, (i) putting on hold expansion plans and activities which require heavy capital commitment of the Group to maintain a relative low operating costs in the future; (ii) reviewing its existing plan of using the Net Proceeds and adjusting the allocation as necessary and appropriate to ensure a sufficient level of liquidity; and (iii) implementing cost-saving measures.

Based on the above, the Directors have decided to (i) temporarily put on hold the expansion of the Group's production capacity in Jiangxi, the PRC; and (ii) reduce the Net Proceeds to be used for the promotion of corporate image and brand building, as well as the enhancement of quality assurance capabilities, and as a result, an aggregate of HK\$16.8 million of the Net Proceeds is left idle.

The Board considers that the allocation of a certain portion of the unutilised Net Proceeds which is currently left idle to general working capital is conducive to the Group by way of improving liquidity to support the daily operations of the Group and reducing reliance on external financing.

As such, the Group decides to re-allocate (i) HK\$12.9 million originally intended for the expansion of the Group's production capacity; (ii) HK\$1.1 million originally intended for the promotion of corporate image and brand building; and (iii) HK\$2.8 million originally intended for the enhancement of quality assurance capabilities, as general working capital for the Group.

The Board also believes that the re-allocation of part of the Net Proceeds as general working capital, instead of being confined to restricted usage, could give flexibility to the Group to respond to the changes in the eyewear manufacturing industry.

The Board is of the view that the reallocation of the Net Proceeds is in line with the business strategy of the Group and will not adversely affect the operation and business of the Group and is in the best interest of the Company and the Shareholders as a whole. The Directors will continuously revisit the plans for the use of the unutilised Net Proceeds and may amend such plans as and when necessary, to cope with the changing market conditions and strive for better business performance for the Group.
